

Awaiting His Re-turn

A Eulogy For John Kaminski

A Eulogy for John Kaminski and the Awaiting of His Re-turn

It was an honor to have become acquainted with John Kaminski, writer; political commentator and sometime radio broadcaster of the Truth. His message was too much for the cabal of the dark Lord to cope with and I'm fully convinced his death was not accidental, was no mere 'straw death', the pacific leave-taking of his mortal coil and this vale of tears.

On the contrary I am fully convinced that Mr. Kaminski was assassinated. The numbers 'add up' so-to-speak and the circumstances suggest nefarious doings by the subterranean forces of the cabal. 'Heart attacks' and 'strokes'; lung and respiratory problems preceding them- these are all, to all appearances 'normal' everyday occurrences. Occurrences that serve the world order and their plans of removing from the minds of the public the message about who they are; what they do; how and why.

This was the message of John Kaminski and he had made his way over the course of his investigation into Reality (into the Truth behind the scleral covering of lies the cabal uses as their camouflage) to a position over the target.

It was too close for comfort for the dark forces and they deployed their agents to dispatch him. In the dead of night when 'old-timers' drop dead...of 'heart attacks'; 'strokes', etc., especially when these alleged occurrences ('tragic accidents') are preceded by lung problems ("owing to covid", etc.).

Plausible deniability: one cannot deny that it was 'plausible'... And yet was it actual? Doubtful shadows begin to play about one's field of vision causing questions to arise and to lead to yet more questions.

The procedures of the cabal's assassination are always undergone so that they correspond as closely as possible to the 'plausible'; to the 'probable'; the usual; the 'average'. Indeed their *modus operandi* has always been an 'imitation of the truth', a mimicry of organic reality, of Reality itself. Their world is that of their God Jehovah the 'great imitator of the universe', the so-called 'creator' or rather 'plagiarist' of the eternal realm of Hyperborea.

Mr. Kaminski had discovered the esotericist Miguel Serrano a few short years before Mr. Kaminski's untimely(!) demise and he had been instrumental both on his radio show "Kaminski Goes Ballistic" (K.G.B) and through his articles in transmitting the message of Miguel Serrano and esoteric Hitlerism to the public, helping to banish the darkness which the cabal had shrouded our sight in.

Therefore the cabal had a problem on its hands and that was the message Mr. Kaminski was revealing to the world. Their problem thus lay with the messenger himself as: 'no messenger=no message'. In order to eliminate the effect the cabal had to eliminate the cause and that cause was the erudite Mr. Kaminski, the role he played in merging the wisdom of the Miguel Serrano with the world of chaos we live in in order to enable the public to see the Truth.

The brightness of the light he shone through his words was too much for the cabal. They wanted the population trapped within their false dichotomy of 'left-wing versus right-wing' of 'monotheism versus satanic atheism' ('godless paganism'). They didn't want the public to know that the Truth lay elsewhere, outside of their 'demiurgic dialectic', the false 'set of choices' they presented to the population ('paper or plastic'; 'Coke or Pepsi'; 'left-wing or right-wing'; 'capitalism or communism'; 'monotheism or devilry').

This revelation Kaminski's message was indeed too close for comfort and they brought into play their mechanisms of violence against him. They increase their harassment, targeting him with a greater intensity of assault than ever before: they gassed him with poisonous gas, pumping gas around his residence (and into it via holes drilled into the walls and ceiling for that purpose?) inducing lung damage, hoping he would die of what would appear to be 'covid'-the symptoms were of course 'plausibly deniable'; 'usual'; a common occurrence indeed... Failing this they brought to bear a more extreme form of assault during a time when his radio show was attaining the height of its popularity: they mobilized their violence apparatus of weather warfare and induced a hurricane nearby where he lived hoping to cause his death. By the grace of the gods he survived and managed to escape their assassination attempt.

Though to the average person it may seem impossible and 'unlikely' that individuals would have a whole apparatus of evil brought to bear against them one need only reflect back on the case of the Romanov family to understand the sheer malevolence of the cabal against those who impede their plans for 'global dominion' (their 'dominion mandate'): assassinating an entire family over a century after their great-grandfather refused to agree to a proposed 'United Nations' around the time of Napoleon. Presidents have been assassinated; creators of profound inventions of utmost genius; suppressed technology (Tesla; Royal Raymond Rife; John Keely, etc.).-No it is no stretch of the imagination to understand that the cabal brings the full brunt of their forces against individuals who are significant enough to thwart their plans. "If you don't like the message shoot the messenger" is their credo.

Finally they, having not been able to 'neutralize' the threat to their mind control mechanism of system propaganda (the cult of equality and its myriad prophets: Marx; 'St'.Paul, et.al), they decided they would ramp up the aggression using directed energy weapons by cell tower-a cell tower which was located nearby where Mr. Kaminski lived.

Such attacks can induce heart attacks via microwave transmission, beaming the person the cabal hates with their sinister technology. Just ask Werner Bock in New Brunswick, Canada who was assassinated through this means so that the cabal can steal his land and silence his exposé of their agenda. Perhaps also William L. Pierce and the 'sudden' terminal cancer he had developed leading to his death?

'Plausible deniability' they would claim, a 'coincidence' (Cohen-see-dense). Things 'coincide', based upon causality. Target a messenger's publication of Truth they hate and suddenly the message ceases. Things 'coincide', cause-and-effect. Eliminate the cause (the messenger) and you eliminate the effect (the message).

The exposure of the cabal at its deepest levels was the task of Mr. Kaminski. This message was not your average everyday 'shock jock' radio blather broadcasting from the pulpits of Zion '*ex cathedra*' as the 'propaganda de jour' of the system and its (false) alternative hacks; disinformation agents and controlled opposition puppets.

No, his message was unadulterated and pure like the light of Hyperborea, melting the ice crystals of the Icy 'Crystal Palace' of the Demiurge, the false God Jehovah (as the book "Yahweh the False God" by Theodor Fritsch, author of "The Jewish Question" exposed at an earlier Time in the brief period of spring in which the Truth began again to flower in the Third Reich).

Kaminski was right above the target and was dropping bombs of Hyperborean light on the dark forces, exposing their evil for all to see. This the Cabal did not want as their system of slavery and vampirism was threatened. Their system of falsehood and lies operates behind the false appearance of invented 'religion', the true 'satanism' of this world.

Mr. Kaminski traced the golden thread of Hyperborea throughout the tenebrous shadowy rubbish of the garbage dump of this world, overturning idols placed before him and bringing people towards the Truth-they who care about Truth and don't simply acquiesce to the lies that serve to line their pockets with profits and confer upon them an illusory sense of 'immortality', 'treasures in heaven' with which to purchase their every desire.

They who are amenable to Truth were led from the simulacrum (the false cause, the counterfeit) of 'the Zionists' to the Truth about the jews as a biological entity and away from other blinds they conceal themselves behind: illuminati; Freemasonry; Bilderbergs; the Catholic Church, etc.

Indeed all roads lead to Mordor which is the land of Zion and to the wizards of Zion who conceal themselves behind the curtain of illusion, the technicolor dreamcloak of Joseph the jew. All roads lead thereto and, on the material plane we have what the jews themselves call 'Jehovah-Malkuth' which is the jewish 'chosen people' of Jehovah, the material instruments on the earth who are equivalent to Jehovah in fleshly form, 'Is-Ra-El', they who 'rule with God' (and 'as God').

The state of Israel was and is the microcosm of the Zion macrocosm and, whether zionist; atheist; socialist or other the jew is still a jew and knows this and acts accordingly. Not all perhaps... Bobby Fischer opposed his 'chosen people' and, as a 'din rodef' (a 'pursuer' according to Judaism) was assassinated while in refuge in Iceland.

Mr. Kaminski pointed out this microcosmal entity, the very eye of Sauron on the earth, in the region of Mordor, the Levant, the land where 'the shadows lie' (and indeed where the lie manifests in and from the shadows). His writings exposed this microcosm of the macrocosm of Jehovah-Malkuth, of the 'chosen people', of the 'organic lie' and indeed they were as effective as megaton bombs striking their target only not with violence but against their violence, with the implosive light of the green ray of Hyperborea, with the black suns of their implosive anti-matter leaving behind the green glow of eternal Truth and not the radioactive glow of fall-out and deadly organ, the light of Truth and light that enables life to prosper and people to optimize as without Truth there is only dysfunction and chaos and ultimately death.

Mr. Kaminski was a torchbearer of truth and his exposé of the violence of the cabal, of their praxis which violates harmony and Truth and takes from others their substance, absorbing it into themselves vampirically, has enabled the lives of millions to prosper and to enhance and optimize their own states of being and that of others.

The transmission of Truth is like a burning brand radiating outwards-the more light the less darkness (falsehood), the more light the more it spreads as fires in the minds of men ignited by the torch of Prometheus. Mr. Kaminski was a Promethean in the true sense of the word and his light will not be extinguished even should his physical vehicle have been subjected to the violence of the cabal, the wire-pullers, evil geniuses of diabolism and their witless slaves and minions, foremost amongst whom are the religious fanatics who worship their 'chosen masters' and their violent father God Jehovah the one and only 'Satan'.

It is the expressed wish of the writer that they who read this will preserve Mr. Kaminski's writings, will obtain all copies of his work and distribute them as widely as possible, putting them again in print. Especially his writings of the past few years of his life when he had, by his own acknowledgment, managed to find the teachings of Miguel Serrano and his message which Mr. Kaminski helped to relay, carrying the torch of the Hyperborea light and transmitting its refulgen glow to those who still(!) at this late hour remain in darkness.

His work must be preserved and it is the duty of posterity not to let the torch he carried sputter out and become extinguished.

A final word to the cabal:

You intend to shroud the world in a dark age of thoughtlessness and banish the light of Truth- an impossible feat as your distortion and strategies of confusion are simply a spider's web you yourselves will be (karmically) tangled in and those you wish to entrap in your matrix of lowest density will be extricated and will find their liberation soon- in this world and under spiritualized conditions with the changing of the Aeons and the destruction of the cabal. Resistance for you is futile and victory inevitable for the Hyperboreans, they who dwell in Eternity. Mr. Kaminski is one and yet is not the only one. He will reincarnate and will continue to fight. The more chaos you cause the more karmic consequences you will incur. Give up or create even more suffering for yourselves.

Mr. Kaminski may you, as an Eternal Champion, Re-turn to fight this war again. There is no 'resting in peace' as 'peace is death' and-"all life is struggle" (Hitler).

HH/88

Addendum: The Writer's Personal Acquaintance with Mr. Kaminski

I had first heard of John Kaminski through the radio show of Jeff Rense. His presentations impressed me as precise and to the point with an appealing, hard-hitting quality (appealing to myself). Perhaps it was the Polish blood of Kaminski that resonated with myself and manifested itself in this form of delivery, this form of message? Being of similar blood the message resonated with me. In the midst of a clatter of conspiracy rhetoric I lost track of Kaminski until within the last few years.

I had never been one for politics and sought a 'higher perspective', one more 'meta-political' or esoteric and the presentations even on a Rense radio had too much of the nitty-gritty mainstream political character for me. Hence I lost track of Mr. Kaminski and his message as his focus was on more tangible and particular issues.

A friend of mine, a fellow targeted individual named Renate Detels, encouraged me to reacquaint myself with Mr. Kaminski yet again and I took a listen to his radio show which he had just recently established a show called "Kaminski Goes Ballistic" (K.G.B).

The show and his guests were appealing enough and I, at the behest of Renate, decided to reach out to him owing to the fact of his presenting the work of Miguel Serrano, the esoteric Hitlerist and Chilean diplomat. I was and am a devotee of the teachings of Serrano and look upon his work as the greatest source of Truth available to the public as of this time, especially in his works "Adolf Hitler: the Last Avatar" (falsely translated "Adolf Hitler: the Ultimate Avatar") and "Manu: For the Man to Come" (a shorter and more accessible work).

That Mr. Kaminski had discovered the writings of Serrano and was serving as a catalyst of their revelation encouraged me to attempt to assist him to the extent I was able in his publication of the message. I emailed him and this initiated a sporadic exchange between the two of us over the course of the last years of his life.

I did my utmost to provide links to essential sources and to attempt to influence Mr. Kaminski in his plumbing the depths of the conspiracy which I myself had been involved in for the better part of two decades. Strange and outre topics such as the relationship between jews and the planet Saturn and reptilian extraterrestrials in addition to other dimensions of the cult were gone into.

The notions of 'egregores' or thought forms and the black magic of Judaism and Freemasonry as well as the structure and meaning of the system of 'the world' which they operated (or assisted the dark forces in operating) were undergone: the *modus operandi* of the cabal, it's intent to steal the spirit energy of its captives on the earth- the way in which their vampirism translated itself into the institutions and infrastructure of their system (the banking usury system; the mind control religious

matrix with its egregores of 'jesus' and 'spiritual israel', etc.)-How it all operated and why, in short.

The motivation was to get to 'the bottom' of the swamp system as a means of understanding the enemy in their depths and this as the most effective means of opposition to them. Else to remain ignorant or dimly acquainted with surface appearances and that alone, the 'mainstream lamebrain' perspective, stuck in a kosher designed and approved 'left-right box', christians versus communists', etc.-as if there were any fundamental difference between the two, both being egalitarian globalists and inveterate hypocrites.

I had the fortune to be invited onto Mr. Kaminski's show 'K.G.B' ("Kaminski Goes Ballistic") to speak about Serrano and his works which I look upon as an honor and a privilege. I did my best to adequately acquaint myself with Serrano's works to prepare for the show as so much of the complexity and ambiguity of Serrano's teachings had slipped my mind if only in the moment. It was a re-turn to Hyperborea reading again the book "Manu: For the Man to Come" and as I read it I again experienced the transmutation of my consciousness, re-calling essential teachings of the master Miguel Serrano.

I fully admit my own fallibility and limited comprehension of the wisdom of his teachings and yet I was prepared enough, though far from adequately, to go on Mr. Kaminski's show and present the doctrine of esoteric Hitlerism as best I could within the short span of time allotted to us on the shows' format. Apparently it was a success having had an influence on the audience and I was invited back again a few times to reveal the complex dimensions of Serrano's teachings.

Around this time Mr. Kaminski was having Jack Hart on his show (the pseudonym of a jew Mr. Kaminski eventually recognized as a CIA asset). I attended with 'Jack Hart' (Jack of hearts? Black heart?) and observed the face of the CIA clown. He was indeed a jew. Nevertheless I decided it would be prudent to get along with him as a means of getting Serrano's message out and my own attempts to plumb the depths of the conspiracy.

Jack Hart introduced many ideas in his presentation on "the rainbow bridge" that were divisive and that either time didn't recognize fully to be such or what way they were divisive. He spoke of how 'we' were all from Sirius (the dog star in the Orion constellation) which is a patent falsehood as the notion of a common origin of 'humanity' is false, indeed 'humanity' itself is simply a masonic universalist abstraction which Serrano discusses in-depth in his works (eg "The Golden Cord: Esoteric Hitlerism"; "Adolf Hitler: The Last Avatar"; and the article "We Will Not Celebrate the Death of the White Gods" amongst others).

Hyperborean spirits are the immortal creators which came from Venus into the solar system and came onto the earth to liberate the captive souls of the animal men by interbreeding, freeing them from the Demiurge's matrix of spatio-temporality of lowest density.

I had discovered somewhat after this time that the 'rainbow bridge' perhaps related to wormholes to different dimensions through which jewry were (are?) transplanted to earth (from Alpha Centauri and Saturn). The dimensional portals at the earth's poles and elsewhere on the earth (aka. star gates) were contested regions vied for by the rival factions, the 'Satanic Saturnians' of the Yahweh cult and the Luciferians, the bringers of light and life amongst whom Miguel Serrano was a prominent adept.

Through this contact that Mr. Kaminski had so courteously provided I was able to publish articles of mine on Jack Hart's blog which enabled me to further spread the message of esoteric Hitlerism though my personal articles had much in the way of defects and misunderstandings ('the blind leading the blind?') yet they gave references to those who had a greater acquaintance with Truth than myself.

Given that the subject matter that I was publishing on Jack Hart's blog was to 'pro-white' for his audience's liking his blog suffered a blow to its readership though he continued to publish it for a time hoping that he could entrap me in a 'hate speech' related case in the country that I'm located in where these laws obtain. This was a stroke of fortune in my assisting in sabotaging his blog given that his presentations were simply disinformation leading people away from Truth and towards the systems' 'left versus right' propaganda line ('dividing and conquering the nations').

I went on another show with Mr. Kaminski with an acquaintance of mine, a translator of the Italian philosopher and esotericist Julius Evola, to discuss the works of the latter and this assisted in acquainting the audience with the 'radical traditionalism' of Julius Evola. However Evola, as Miguel Serrano had commented, was only a partial Truth and led to a state of inertia, fitting within the system's paradigm of 'conservativism' though in the form of a more elaborate philosophy.

And therein lies the danger of 'traditionalism' as it is perfectly consistent with the worship of the Demiurge even though it pretends to oppose it or to 'rectify' such fallen pseudo-traditions as christianity and other mainstream monotheistic ideologies. Nonetheless it can assist in shifting those who are trapped within the materialistic and monotheistic paradigm to extricate themselves from this matrix if and only if one does not end with 'traditionalism' but uses it as a point of transition towards the true radicalism of the teachings of Miguel Serrano, what may be called the 'primordial gnosis' or 'Hyperborean wisdom'.

Evola takes the reader a short distance and no further just as do the current 'traditions' of the contemporary world (Taoism; Buddhism; Hinduism; Abrahamic Saturnianism-all situating one within the universe of the Demiurge or 'the One'-Jehovah; Brahma; Allah, et.al and not re-turning to the realm of Hyperborea, of the Green Ray behind this limited sphere of the Demiurge's Time-space continuum).

I returned to Kaminski's show with another guest in a round-table discussion of the phenomenon of targeted individuals and gang-stalking, the fourth generational warfare of the cabal, it's main *modus operandi* of dispatching its enemies through devious forms of torture-murder, clandestine assassination (called 'sikul memukad' in Hebrew and controlled at its highest levels by Mossad).

Renate Detels was on the show with me and she spoke at length about her vast experiences on this subject. Unfortunately a masonic infiltrator attempted to derail the discussion with meaningless rhetoric about 'christ' (the 'christ archetype' of the christian mind control program) and I did my utmost to put him in his place causing him to rage quit and disconnect from the call. He had allegedly written a cobbled together compilation called "The Cosmic Alarm Clock", subtly referring to his Demiurge deity the Time-Lord Jehovah, generator of Time-flow (the logos spermatikos and His 'Will-To-Power', generating the plagiarism of the material world superimposed upon Hyperborea).

I had also assisted in bringing on another probable crypto-catholic agent who discussed the (crypto-catholic and crypto-jew) Francis Parker Yockey's work. At around this time the show was cut short by the ineptitude(?) or pure selfishness of the technical 'wizards' whose service-to-self motivation undermined the continuance of Mr. Kaminski's show. Perhaps the 'helpers' of Mr. Kaminski were instead secret enemies, agents of the synarchy who sought to undermine the Truth and to perpetuate the Demiurge dialectic of 'right-wing conservative monotheism' (Demiurge worship) versus 'left-wing atheist materialist neo-paganism' ('satanism' in the minds of the true Satanists of Abrahamic religious bigotry).

One of these who had involved themselves stated they had known Serrano personally. They claimed they had much in the way of rare materials (photographs and writings) of Serrano yet when I requested that they photocopy them into electronic format so that they could be made public they stated: "they didn't have time". They were too busy attending pleasant dinners, etc. Such is the nature of this age, the 'Kali Yuga' as it is called in vedism, the duty one has is neglected and supplanted with the transient experiences of the material world.

Once Mr. Kaminski's show had been derailed (deliberately I will contend) he was back to article writing. That people are more willing to listen than to read at this time of darkest ignorance reduced Mr. Kaminski's audience which the cabal certainly intended. Regardless, the Eternal Champion Mr. Kaminski continued his noble effort, his true jihad or holy war against the bigots of Monotheism and their affiliated globalists; universalists and egalitarians; making his insight available to the few, they were capable of receiving a truth beyond belief in system dogma.

His last writings during the last years of his life were as ballistic missiles projected against the enemy striking the weak points of the system. That hurricanes and gassing couldn't dispatch him nor being subjected to radio silence and sabotage meant the cabal had to take alternative means to destroy what they could not refute through argumentation or presentation of Truth, a Truth which they only sought to conceal.

Therefore they issued their fatwas against him in their subterranean way and through their subterranean networks. This is the contention of the writer. This was no 'straw death', the 'sad fate of an elderly man who had lived a full life' but rather a deliberate terrorist strike against an opponent whose message threatened their power and was therefore not taken lightly but subject to a total onslaught by system aggression.

My brief acquaintance with John Kaminski assisted me in understanding this world and provided me with the opportunity to oppose our mutual enemy, the dark forces of this world, and to shine the light of Truth upon their illusions and false appearances. May the memory of John Kaminski continue to outlive his physical form and that he continue the fight in a new one, re-turning to this world of the Demiurge to banish these wizards of Zion and their machinery of artificial (and simulacral) 'intelligence' to the nether regions of Dis along with their Demiurge Jehovah, the true 'Satan'.
